The Tariff Plank.

The Tariff Plank.

Then comes the tariff plank. It proposes a conservative and business-like revision and reduction of the tariff by the friends of the people, and not by those who favor its abuses, extortions and discriminations, having in view the constitutional purpose of raising a revenue by taxation, the maintenance of the antional government in its integrity and virility, but in republican simplicity.

The tariff plank suggests that men of common sense will iteep in view the existing conditions, however wrongfully produced, and the peril to the cause of 'ariff 'refer's itself in a sudden and revolutionary programme. Two things should be remembered—the general principle that the only derivation of the taxing power is the maintenance of the Federal government economically and constitutionally auministered, and that due regard must and should be paid to actually existing conditions, however unjustly or artificially produced.

The platform favors the lowering of the fariff on trust-produced articles to the point where foreign competition may enter America, where combinations alming at monopoly lift ther prices to the American consumer, and under the sheld of law advance these prices higher than those demanded of the people of other countries for the same articles.

Reciprocal Commercial Rela-

Reciprocal Commercial Relations.

Another plank favors reciprocal com-mercial relations with other nations by treaty or legislation, as against commer-cial retailation. It is especially sug-jected that mutually beneficial trade re-lations with Canada and Cuba should be

The maintenance of the Monroe doc-The maintenance of the Monroe doctrine, as announced by Monroe and enforced by Grant and Cleveland, is favored, but the platform declares that it is not the duty of the United States, as the present President seems to believe, to administer the governments of Central and South America.

President Roosevell's letter to the Cuban hanqueters, threatening nations which do not keep order and pay their obligations, is denounced as reckiess and reprehensible.

reprehensible.

#### Philippine Plank.

The Philippine plank opens by favoring the preservation, so far as possible, of an open door for the commerce in Asia, without unnecessary entanglement in Asiatic or European affairs, and without unlimited, irresponsible and absolute government anywhere under the flag lute government anywhere under the flag or within the jurisdiction of the Union. An indefinite, irresponsible, discretionary end vague absolutism and colonial exploitation is strongly opposed.

The example of Japan is pointed to as holding out hope that the Filipinos can produce a civilization of their own better than any American veneering.

The Democracy favors the execution in the courts, without executive construction, of the statutes of the United States as they stand, and especially the exe-

tion, of the statutes of the United States as they stand, and especially the execution without fear or favor of the interstate commerce and anti-trust laws, laving to Congress the duty of making necessary amendments; also the passage of laws to end unjust rebates and discriminations and favoritism extended by common carriers to trust and unlawful combinations.

### Iniquitous Partnerships.

Iniquitous Partnerships.

The existing partnership between the Treasury Department and certain favored national banks, by which millions of dollars are annually lent without interest, is denounced as iniquitious.

The platform congratulates the country that it has no larger sum of outstanding, uncovered paper money than at present. The Democracy declines to recognize that the \$346,000,000 of outstanding treasury notes are a burden to the country or a menace to business interests.

The issue of interest-bearing bonds is opposed, while the government has enough money in the treasury or in bank subject to call to meet the national expenditures.

penditures.

The platform favors honest and liberal appropriations for needed public works, especially in the interest of navigation, with cheaper transportation in view. The reduction of the army to a point historically shown to be safe and sufficient is urged. A liberal annual increase of the mavy is favored. The merchant marine should be built up without new or additional taxation or public bounties.

#### Capital and Labor.

The platform promises, in conclusion, that the Democracy, when it comes into power, will build the Panama Canal guickly, honestly and economically.

#### A Hearst Ripple.

The arrival of the California and other detegations from the West, which are under instructions to vote for Hears, tirred the atmosphere early in the day, under instructions to vote for idearst, ritired the atmosphere early in the day, and there was some speculation as to what strength Hearst actually has in the monvention. The claim of Hearst managers of more than one-third of the delegates and power enough to prevent the selection of any candidate not satisfactory to Hearst, is not seriously considered ay irlends of Parker. The Hearst men have decided to have a test of strength before the platform is voted upon, and will force a vote by putting forward a candidate for permanent chairman.

During the day there has been talk of Cieveland, Gorman, Olney and Harmon, it seems to be understood that Ohlo intends to cust a complimentary vote for Harmon, and that Parker will then get the delegation, with a provise that Gorman's appearing as an netive candidate would materially change the conditions. The only active and positive Gorman force at St. Louis now is Henry G. Davis, former senator from West Virginia.

Capital and Labor.

Capital and labor should not be foes; laws giving each impartially its just rights should be enacted and enforced. The rights of one are not more sacred than the rights of the other.

The negro question is dealt with in a brief paragraph, declaring that the Democracy is out of sympathy with those who wish, or who would not by every legal and constitutional means prevent the Africanization or Mongolization of Mongolization of Mongolization of Mongolization of Mongolization of Mongolization of Mongolization and laws dealing with Colombia is regretted as a stronger nation be followed by war. The builty of the world. There is a distinction drawn between the Panama Republic question and the Panama Canal question.

The platform promises, in conclusion, that the Democracy, when it comes into Olney Talk.

Now and then is a mention of former Secretary Olney, and connected with the suggestion that Olney is the only man intimately connected with the last Demogratic administration or who is being put forward by the conservative element that is not objectionable to Mr. Bryan. So fair, no one has appeared as Bryan's representative to confirm or deny this report, but it is said that in case of the balloting being prolonged Olney would receive the first accessions from the Bryan men, who prefer the Massachusetts man to Parker.

It is apparent that quite a number of delegates are smarting under instructions for favorite sons. They feel that they are thus debarred from taking part in the making of a presidential candidate unless there should be a prolonged struggle.

Hill Parker's Spokesman.

Hill Parker's Spokesman.

There was increased activity to-night, caused by the arrival of prominent New Yorkers, headed by former Senators Hill and Murphy. Quite an effort has been made to create the impression that William F. Sheehan, and not Hill, is the real representative of Parker. This is for the purpose of meeting the frequent charge that Parker is "Hill's man," but the arrival of Mr. Hill and the many calls made upon him indicate that he is at least the political head of the Parker movement.

While the presidential situation is the most interesting feature of the anteconvention days, the platform is a subject of debate and secious consideration. Many suggestions have already been made, but no one can say which will meet with the most favor. Some of the delegates think the platform will engender the greatest contest of the convention. There was increased activity to-night, caused by the arrival of prominent New ention.

#### TURN TO CLEVELAND.

Georgia Delegation Will Do So

if Parker Fails.

(By Associated Press.)

ST. LOUIS, MC., July 2.—Hoke Smith, of Georgia, who was Secretary of the Interior under President Cleveland, and who was the leader of the Parker movement in Georgia, presents a certain sentiment that is prevalent in some quarters. He is for Parker and will support him as long as there is a possibility of securing his nomination. That is the attitude of the Georgia delegation, but

in case it becomes evident that Parker cannot be nominated, then Gerigla has a majority which would vote the whole delegation for Cleveland.

"Of course," and Mr. Smith, "my preference for Mr. Cleveland is well known and I would be glad to see him nominated, but we are honorably committed to Judge Parker."

#### CREATES SENSATION.

Gorman's Failure to Attend Re-

Gorman's Failure to Attend Regarded as Significant.

(Special to The Times-Diseatch.)

BALTHORES, MD., July 2.—The failure of Benator Gorman to start for St. Louis to-day created a big political sensation here, and was generally interpreted to mean that the Senator is a candidate for the presidential nomination.

It had been expected for a week that the Senator would start to-day with the advance party of Marylanders, who left here in a private car. It was intended that the train should stop at Laurel and pick up Senator Gorman, but when that station was reached there was no sign of stopping. The Senator remained at his country home three miles from the railroad. At Washington, where the Senator's son boarded the train, a big portrait of Gorman was put aboard the train for St. Louis. This was considered significant. To-morrow the main party of delegates will leave here, and Senator Gorman said last night that he might join them. To-day he was seen at his home and was found to be supervising the building of a fence. He said he would talk about the crops, but not about politics. It is not believed here that he will go to St. Louis at all.

It is stated with considerable show of authority by several leading Democrats that, despite the fact that he is a candidate. Senator Gorman will not permit his name to go before the convention at the time the nominations are being made. No State other than Maryland would present his name and judging from what the Maryland delegates say, Senator Gorman has expressed no wish as yet to be formally named as a candidate at the beginning of the struggle. The general opinion seems to be that he will take his chances in the general scramble after the avowed candidates have demonstrated their inability to poil a sufficient number of votes on the first or second ballot to win.

ST. LOUIS, July 2.—For the first time since the delegates to the approaching Democratic convention began to collect in this city a movement looking to united action on the part of the anti-Purker forces was inaugurated to-day, ar, Senator Stone, chairman of the Missouri delegation, stood sponsor for it. He appears as the champion of his colleague, Senator Cockrell, and was in conference several times during the day with the leaders of what is known as the Bryan element and with representatives of Mr. Hearst, Senator Gorman and other possible candidates.

No details of these meetings were obtainable, and Senator Stone refuses to discuss them. He talked freely, however, of the necessity of united action, saying that unless the opposing delegations reached an agreement Parker would be nominated. He said he thought Parker's defeat could be accomplished, and that Cockrell would them become available.

The only other name memioned in connection with the office was that of Thomas E. Barkworth, of Michigan, whose name was presented by Daniel J. Campau, but was afterward withdrawn. Mr. Williams was suggested by James M. Head, of Tennessee, and the nomination was seconded by Mr. McGuffy, of Penpsylvania.

NEW ORLIANS, July 2.—Senator Foster and E. B. Krutskenhitt, chairman of the Democratic State Central Committee, two of the delegates at large, and a number of other members of the Louis and delegation, left here to-night for St. Louis. Some are already in St. Louis, and the remainder will leave on to-morrow's trains. Owing to the illness of Lieutenant-Governor Sanders, Governor Blanchard is unable to go. At an intormal meeting here to-day, it was decided that the delegation should meet in the Louisiana headquarters in the Hotel Jefferson, at 8 o'clock, Monday night, for organization and selection of committeemen. The sentiment of the delegation is strongly for Judge Parker, and it does not expect to have to waive its instructions, as it is authorized by a two-thirds vote to do.

National Committeeman Clark Howell will leave for St. Louis on the early morning train to-morrow. The Georgia delegation is instructed to vote for Judge Parker for President as long as in the cylind of the majority of the delegates there is a reasonable chance for his nomination. That is the statement with which the Democratic leaders from New York landed in St. Louis. Former United States Senator David B. When it is adopted, as Mr. Hill believes it will, it will, in his estimation, sound the toesin for the nomination of Judge Parker.

Judge Parker.

Benator Hill, former United States Senator Edward Murphy, State Senator Patrick H. McCarren, Wilam F. Sheehan, Jacob A. Cantor, Ellot Danforth and other leaders arrived here this evening. Enratte it was decided that David B. Hill should be the member of the Committee on Resolutions and William F. Sheehan the member of the Committee on Edward Murphy would cast the seventy votes of New York State for Alton B. Parker and a sound money plank.

Senator Hill, while not desiring to talk for publication to-night, has during the day expressed the belief that Judge Parker will be chosen on the second bailot, and probably on the first. There is a growing belief among those of the party arriving to-day that the Tammany delegates, appreciating the strength of Mr.

gates, appreciating the strength of Mr. Parker, and having no argument to present against his fitness, will regain from opposing him.

It is intimated by some of the party that

this harmony may be accomplished by promising the nomination for Governor of New York to George B. McClellan or some other men acceptable to Tammany.

Some time after this incident information was received that Goode was in a house on Church Hill, in the vicinity of Twenty-ninth and P Streets. This the was a straight one, and the police have faith in it. A "hurry rush" was made for the scene. When the officers got to the house they found that Goode had been there, and had left but a short time before they reached the premises. This clue is being pushed for all it is worth, and Chief Huice is quite sure of faverable results in a short while. All suspected houses are being shadowed.

These three incidents, the appearance of the man on Brook road, his later appearance at the Broad Street bar-room, where he changed his clothing, and his turning up at the Church Hill house still later, confirm the belief that he is in Richmond, and that he is being hard pressed.

The chief was in close touch with his men out on duty and at the station houses, and he was kept informed of every movement.

The work will continue this morning.

Dan Cupid Wins Again. Because her intended husband was under age, Mrs. Blzzell, of Hazelton, Fa., was unable yesterday to secure a license here To wed twenty-year-old William Mann, of Fulton. Undaunted by the failure here, the pair left last night for Washington, where to-day they will seek a license and a preacher. With the clopement is a pretty little romance, which indees back to the young man's youth.
